

## Your Local Library, anywhere.

There's a new way to access and keep up-to-date with Hertfordshire Library Services: the app!

Download Hertfordshire Library Service's new app for free and use it to search the extensive catalogue of books, e-books and audiobooks.

Renew your books whenever you want. Find your nearest library, its opening hours and how to get there, wherever you are.

With the app, you can scan the barcode of any book anywhere, check if Hertfordshire Library Service has a copy and, if it does, reserve it for collection from your nearest library.

The app also gives you access to a wealth of information through the library service's numerous online reference resources, or you can "Ask a Hertfordshire Librarian".

With links to Facebook, Twitter and local events, stay up-to-date with what's happening in Hertfordshire Libraries.

The app is available to download for Apple and Android devices. Get it now from the App Store or Google Play.
